Micrographics — Quality control of COM recorders that generate images using a single internal display system

Part 2: Method of use

TECHNICAL CORRIGENDUM 1

*Micrographie — Contrôle de la qualité des microformes produites sur un système électronique (COM) de
génération d'image adressage de points*

Partie 2: Méthode d'utilisation

RECTIFICATIF TECHNIQUE 1

Technical Corrigendum 1 to ISO 14648-2/Cor.1 was prepared by Technical Committee ISO/TC 171,
Document management applications, Subcommittee SC 1, *Quality*.

Page 3, 5.2.6, second paragraph

Delete the second and third sentences as follows:

“If a microscope is not available, a microform reader may be used to obtain an approximate value for limiting resolution. The microform reader may indicate a lower resolution due to its optical system and many readers will degrade the image quality, thus reducing the ability to accurately judge the limiting resolution.”
